## WOOD VENEER CEILING AND WALL PANELS

*Accessible Wood Ceilings and  
Wall Systems Delivering  
Flexibility in Design Through  
a Wide Variety of Geometric  
Planes, Finishes and Acoustical  
Performance Featuring:*

- **Custom engineering and design to meet the projects vision**
- **Multiple veneers, substrates and laminates**
- **Engineered suspension systems with optional structural capability to support signage and lighting fixtures**
- **Remarkable sound control**
- **Green Building Compliant and IAQ Friendly**
- **Guaranteed installed pricing at time of design**
- **Applications include:**

*Transportation Terminals & Stations  
Convention and Civic Centers, Museums,  
Performing Arts Centers and other designs  
requiring high performance and decorative  
finishes with extended life cycles*

### ACOUSTICAL RATINGS

- **NRC** Noise Reduction Coefficient of 0.70-1.00  
(varies by perforation pattern & acoustical media)
- **STC** Sound Transmission Coefficient  
Metal and composite backers available for a STC  
of 40-44

### FIRE RATINGS

Panels shall have a class A rating when tested in accordance with ASTM E84

### Panel Options

- ▶ Linear, rectangular and geometric panels
- ▶ Rectangular and geometric panels with both concealed and exposed suspension systems

### Acoustical Media / Backers

- ▶ Fiberglass acoustical media encapsulated in black poly or PVC
- ▶ Non-woven acoustical fabric
- ▶ Fire rated plywood backer
- ▶ Medium density fiber board backer
- ▶ Aluminum backer

### Mounting Options

- ▶ Integral fastening flange
- ▶ Continuous "J" trim
- ▶ Torsion Spring
- ▶ "Z" clip
- ▶ Integral reveals
